WORK EXPERIENCE

- Tradedesk Securities** | Research Analyst Jun 2024 – Feb 2025
- Analyzed financial and operational data to support accurate reporting and identify discrepancies across systems
 - Assisted in maintaining structured documentation and workflows aligned with financial reporting and audit requirements
 - Assisted in monitoring system performance and data flows, supporting accurate tracking of financial and operational activity
 - Analyzed operational data and system performance logs to identify recurring risks, uncovering 10+ security vulnerabilities and recommending mitigations for network gaps.
 - Contributed to process flow diagrams and project documentation, improving cross-functional communications and increasing process efficiency by 20%
- Capstone Elite** | Investment Real Estate Management Intern Jun 2023 – Aug 2023
- Conducted investment analysis on 20+ local properties using advanced Excel and analytical skills, identifying cost-effective opportunities within budget constraints and contributing to \$1.2 million in successful acquisitions
 - Analyzed market trends and demographic data through data visualization and pivot tables, leading to 3+ strategic recommendations that enhanced the company's competitive positioning and expanded target markets by 15%
 - Led over 10 property presentations for potential clients, highlighting investment value and tailoring insights—resulting in a 40%+ increase in client engagement or conversion rates
 - Developed comprehensive financial models to assess risk, project ROI, and guide acquisition decisions—models used in 100% of internal investment reviews
- Explorra School of Design and Technology** | Business Consultant – Program Administration Jan 2022 – May 2023
- Administered end-to-end execution of Explorra's International Pathway Program lifecycle, managing application, selection, and onboarding processes for cohorts across India, Canada, and UK tracks
 - Orchestrated speaker, mentor, and industry partner engagement events across 4 campuses, managing logistics and budget tracking for design education programming
 - Maintained and analyzed student data across CRM and database systems, generating reports on enrollment funnels, placement outcomes, and program performance metrics
 - Led founder and student-facing community initiatives, supporting career placement, portfolio reviews, and alumni engagement in alignment with Explorra's academic and industry goals
 - Managed day-to-day operational needs of campus labs and learning centers, driving workflow improvements and ensuring data integrity across reporting processes
 - Supported business development efforts including white-label partnership outreach, referral network building, and Upwork/LinkedIn channel strategy for student acquisition
